

Reflective Roll-Up Warning Signs™

Reflective Roll-Up Warning Signs™

- ◆ USA-SIGN® brand Roll-Up signs offer industry-leading versatility and customizing.
- ◆ Reflective Vinyl meets retro-reflective standards; provide an early, highly-visible warning to motorists and pedestrians to help prevent infringement into active areas.
- ◆ Polished fiberglass vertical batten is riveted directly to the Roll-Up Sign. This assures USA-SIGN® brand signs are “always ready” for “fast deployment” with any NCHRP-350 accepted sign stand.
- ◆ Pocket options include sewn-pockets, plastic fixed-pockets, and our sliding LOCK-Pockets™.
- ◆ USA-SIGN® Roll-Up Warning Signs™ will fit on all USA-SIGN® brand sign stands, and all other Federally-approved sign stands.
- ◆ Our Roll-Up Warning Signs™ come in three basic varieties: Standard Roll-Ups, Roll-Up C-Signs™, and Rigid Roll-Ups™. Each type is available in a variety of reflective materials, shapes and sizes.

Reflective Roll-Up Warning Signs™

Types of Roll-Ups Signs

Std Battens displayed on X-551 Full-Mast [shown above]

C/ Battens displayed on C-202 Half-Mast [shown above]

R/ Battens displayed on X-841 Full-Mast [shown above]

Standard Roll-Ups

Standard Roll-Up Warning Signs™ are the most versatile choice. Equipped with standard batten-sets, they are best used with a "traditional" roll-up sign holder (found on USA-SIGN® E-Series and X-Series stands, and other manufacturers' equivalents).

Roll-Up C-Signs™

Roll-Up C-Signs™ were specifically engineered for use on C-Series Compact Stands™. With a sturdier vertical batten, C-Signs™ allow for optimal wind deflection when mounted on the "Half-Mast" of our fiberglass leaf-spring Compact C-Stands™ (or on another manufacturer's equivalent).

Rigid Roll-Ups™

Rigid Roll-Ups™ have extra-heavy battens to ensure that they remain readable and visible in high-wind areas, where roll-ups with lighter battens may deflect at odd angles and become difficult to see, particularly at night. Rigid Roll-Ups™ are manufactured exclusively with our slide-open LOCK-Pockets™ to eliminate the need to bend or bow any battens during sign set-up or take-down.

Pocket Options for Roll-Ups Signs

LOCK-Pockets™

Plastic Fixed Pockets

Sewn K-Pockets

All three pocket types [above] are available on Standard Roll-Up Warning Signs™ and C-Signs™. LOCK-Pockets™ eliminate the need to bend or bow the battens when inserting or removing them from the pocket. Our LOCK-Pocket™ system slides open to accept the batten, then slides shut again to lock it in place. There is no better Roll-Up Sign Pocket System on the market today.

OverLay Options

OverLays and OverLay provisions are available on all USA-SIGN® brand Roll-Up Warning Signs™. Sewn velcro strips attached to the front of the sign and the back of the OverLay can reduce inventory and increase overall value by giving your signs extra versatility. All of our OverLays are available in the same reflective materials and colors as our Roll-Up signs: SuperBrite™, Marathon™, RS34, and Diamond Grade™.

Additional Options

Sign Storage Cases

Heavy-Duty vinyl construction. Available for ALL Roll-Up Signs, with or without sign legend printed on case.

Universal Jaw-Clamp

Available affixed to center point of any Roll-Up Sign batten-set.

Warning Flags

18" or 24" Fluorescent Orange Vinyl or Fluorescent Red-Orange Vinyl, with 24", 30", or 36" staff.
